Featured 3M™ Sample Collection, Preparation and Processing products.

3M™ Sponge-Sticks

- ▶ Stick-mounted sponge
- ▶ Provides the ability to easily snap off the sponge from the handle after swabbing
- ▶ Available in wet or dry format
- ▶ 1.5" x 3" Biocide-free sponge

3M™ Hydrated-Sticks

- ▶ 1.5" x 3" biocide free cellulose sponge
- ▶ Available with or w/out gloves
- ▶ Pre-hydrated with range of media
- ▶ Bag with write-on-label
- ▶ Decontaminated through gamma irradiation
- ▶ Dry-sponge available

3M™ Sample Bags

- ▶ Available with or w/out filter
- ▶ Bag with write-on-label
- ▶ Tear-off opening remains sealed until ready for use

3M™ Flip-Top bottles 3M™ Mini Flip-Top vials

- ▶ Volume 90 ml/bottle, Mini Flip-Top 9 ml/vial
- ▶ Hinged lid stays open for easy sample additions
- ▶ Ready to use with no additional blending required
- ▶ Headspace and bottle opening make sample addition easy
- ▶ Leak resistant vial helps prevent leakage during shipping
- ▶ Available with various diluents

3M™ Swab-Samplers

- ▶ Swab reaches into corners and hard-to-reach areas for increased accuracy
- ▶ Convenient design helps improve sampling consistency from tech-to-tech and plant-to-plant
- ▶ Bottles have ample headspace for sample addition and vortexing
- ▶ Self-contained swab and vial for increased productivity and efficiency
- ▶ Swab in pre-filled bottle with various diluents

3M™ Quick Swab

- ▶ Ready to use environmental swab quickly delivers 1 ml of sample onto a 3M™ Petrifilm™ Plate
- ▶ Self-contained sampling swab is easy to use and can reduce need for dilution mixing and pipetting for quick sampling
- ▶ Contains Lethen neutralising buffer to facilitate recovery of bacteria

3M™ Enviro Swab

- ▶ Ready to use swab reaches into corners and hard-to-reach areas for increased accuracy
- ▶ Temper-evident band indicates if the swab has been used
- ▶ Convenient design helps improve sampling consistency from tech-to-tech and plant-to-plant
- ▶ Resealable tube provides tight closure for sample transportation

Transport.

Wide variety of bags ensures collected samples are uncompromised during transport to testing lab.

Sample bags

- ▶ Durable, quality construction
- ▶ Wire ties for strong seals and reduced leakage
- ▶ Easy-to-open bag
- ▶ Available with or without sponges

Prepare.

Prepared enrichments and diluents for standardised results – test after test.

Prepared enrichment media

- ▶ Cost-effective alternative to making and sterilising media
- ▶ Lowers operational labour costs
- ▶ Reduces errors in mixing and preparing dilutions
- ▶ Wide range of broths and buffers

Analyse.

The comprehensive line of 3M Food Safety products works together to deliver consistent, reliable results.

Testing solutions and lab supplies

- ▶ **3M™ Petrifilm™ Plates**
Sample-ready microbiology indicator count plates
- ▶ **3M™ Molecular Detection System**
Pathogen testing with molecular accuracy
- ▶ **3M™ Allergen Testing**
