

3M Science.
Applied to Life.™

Better experience. Less hassle.

3M™ Flip-Top Dilution Bottle

A global leader in food safety technology, 3M is constantly improving our products and services to reduce complexity, simplify usage and increase efficiency. Introducing the redesigned 3M™ Flip-Top Dilution Bottle. An easier-to-open, hinged cap stays open on its own to make filling easier. The fully transparent bottle makes it easier to check levels and condition of samples. And a larger bottle opening provides more room for pipettes to help reduce sample spillage. All innovative improvements designed to help you focus on what's really important—making sure your products are safe.

A better design. All the way around.

3M™ Flip-Top Dilution Bottle

Functional improvements

- 1 Hinged cap with built-in drip feature remains open to facilitate sample additions
- 2 Large flange in the cap provides easier opening and closing
- 3 Generous headspace and bottle opening provide ample room for pipettes while minimizing sample spillage
- 4 Leak-resistant seal with tamper evident strip eliminates shrink wrapping and delivers easy, hassle-free removal
- 5 Improved label with easy-to-read reference lines, product information and expiration date to quickly identify samples
- 6 Transparent bottle allows easy viewing of contents
